ATTACHMENT 1: HOSTING SERVICES

1. INTRODUCTION

Where applicable, the Licensor offers hosting services ("Hosting Services") in conjunction with the licensing of the software package as set out below. As at the date of this Agreement, the Licensor has selected Rackspace Limited ("Hosting Provider") as the third-party provider of the Hosting Services. The Licensor may select another provider to be the Hosting Provider in its absolute discretion, but subject to any Data Protection Legislation requirements.

2. HOSTING SERVICES

In return for payment of the Hosting Fees, the Licensor shall provide the following Hosting Services to the Customer: (i) a hardware & software environment hosting by the Hosting Provider in a single data centre on which the Licensor's Software will be installed ("Hosting Environment") for use as one (1) production system; the Hosting Environment is deemed to start and terminate at the external firewall to the Hosting Provider's data centre and specifically excludes the Software itself; (ii) the Licensor will allow specific and uniquely identified persons ("Named Hosting Users") to connect to the Hosting Environment for the purpose of using the Software; (iii) connections to the Hosting Environment will be via the Microsoft Remote Desktop Services solution and an internet-based site to site Virtual Private Network (VPN) connection from the Customer's site; and (iv) one (1) additional instance of the Licensor's Software within the Hosting Environment for use as a test system. Any further additional instances shall be agreed by the parties on the Cover Page or separately in writing.

The Licensor will provide the following services in the Hosting Environment, as necessary: (a) multi layered security monitoring; (b) system component and resource management; (c) regular updates of multi layered security system; (d) scheduled updates of platform/OS environment; (e) scheduled updates of database environment; and (f) database administration. The Licensor will not provide the following services in the Hosting Environment: (v) management of specific static or variable data within the Software; (w) business level reporting from the Software; (x) database or performance management; (y) execution or management of business functions within the Software; and (z) access to Hosting Environment infrastructure other than through the Software. In addition, the Customer's local infrastructure and any infrastructure between the Customer's sites and the Hosting Environment (up to but not including the firewall of the Hosting Environment) remains the Customer's sole responsibility.

The Licensor will use reasonable endeavours to deploy the Hosting Services promptly, but does not guarantee that the Hosting Services will be deployed within a particular timeframe. The Licensor shall not be responsible and shall have no liability for any delay in deployment of the Hosting Services caused by the Hosting Provider.

3. CUSTOMER OBLIGATIONS

The Customer must: (i) use reasonable security precautions in connection with its use of the Hosting Services; (ii) comply with the laws applicable to its use of the Hosting Services; (iii) comply with the Hosting Provider's acceptable use policy as updated from time to time to reflect changes in law, regulation or accepted industry practice, and for the time being, set out at <http://www.rackspace.co.uk/legal/aup/>; (iv) comply with the Microsoft licence terms, for the time being, set out at <http://www.rackspace.co.uk/aboutus/microsoftlicense.html/>; and (v) co-operate with the Licensor's reasonable investigation of service outages, security problems, and any suspected breach of this Agreement. The Customer shall use reasonable endeavours in line with standard industry practice to ensure it does not store, distribute or transmit any virus, or any material through the Hosting Services that is: unlawful, harmful, threatening, defamatory, obscene, infringing, harassing or racially or ethnically offensive; facilitates illegal activity; depicts sexually explicit images; promotes unlawful violence, discrimination based on race, gender, colour, religious belief, sexual orientation, disability; and or any other illegal activities; and not use the Hosting Services to provide services to third parties.

The Customer is responsible for: (a) understanding the regulatory requirements applicable to its business and for selecting and using the Subscription Standard Terms
V1.1 R012022

Hosting Services in a manner that complies with any applicable requirements; (b) keeping its account permissions up to date and confidential; and (c) the use of the Hosting Services by any of its employees, personnel, officers and directors, any person it authorises to use the Hosting Services, any person to whom it has given access to the Hosting Services, and any person who gains access to the Customer's data or the Hosting Services as a result of the Customer's failure to use reasonable security precautions, even if such use was not authorised by the Customer.

The Customer shall use reasonable endeavours to prevent any unauthorised access to, or use of, the Hosting Services and notify the Licensor promptly of any such unauthorised access or use. The Customer may not use the Hosting Services in any situation where failure or fault of the Hosting Services could lead to death or serious bodily injury of any person, or to physical or environmental damage. For example, the Customer may not use, or permit any other person to use, the Hosting Services in connection with aircraft or other modes of human mass transportation, nuclear or chemical facilities, or medical life support devices.

4. AVAILABILITY

"Availability" shall mean the Hosting Environment successfully responding to the Hosting Provider's Hosting Environment monitoring tool. The Hosting Environment will have a target level of Availability of 99% from 18:00 GMT on a Sunday through to 23:59 GMT on a Saturday, except where an Excused Event applies in accordance with this clause 4. The period from 00:00 GMT on a Sunday through to 17:59 GMT Sunday, or any downtime for maintenance or otherwise that is pre-arranged between the Licensor and the Customer, is defined as "Scheduled Downtime". All availability calculations shall be based upon the number of days in the given calendar month.

Hosting Environment Availability guarantee:

The target Availability for the Hosting Environment will be a minimum of 99% of the time in each calendar month excluding Scheduled Downtime and Excused Events ("Target Availability"). The actual Availability of the Hosting Environment will be measured according to the following formula and excluding Excused Events ("Actual Availability"):

$$\frac{(A - B - C)}{(A - B)} * 100$$

Where:

A = total minutes in Calendar month

B = minutes of Scheduled Downtime

C = minutes of actual downtime

The following are "Excused Events" which will not count as periods of unavailability of the Hosting Environment where they occur or persist outside of Scheduled Downtime: (i) the Customer makes changes to the Hosting Environment or otherwise cause or request any change that results in unavailability; (ii) unavailability occurs due to issues with any up or downstream connectivity/interfaces including traffic spikes arising from external factors outside of the Licensor's control; (iii) unavailability occurs due to issues with connectivity between the Customer's site/s and the Hosting Environment or due to any failure or issue outside of the Hosting Environment itself; (iv) where the Hosting Environment is located across more than one data centre and where a failover event has already occurred; the guarantee will continue to apply for the primary data centre but will not cover subsequent issues in the secondary data centre or other internet connection issues.

5. HOSTING SUPPORT

"Hosting Environment Support Hours" are 24/7. Outside of Standard Support Hours, per the Brady Support Policy this support will be provided via an emergency hotline number (available to registered users only).

6. HOSTING SERVICE FAULTS

The Licensor will use its reasonable endeavours to meet the target times set out in the table below. The Licensor will determine the priority of the fault.

Priority H0 – Critical Hosting Service Fault

This applies to faults that will materially impact the Customer’s business because access to the Hosting Environment is unavailable to one or more Users and cannot be used in production, with no possible workaround solutions immediately available.

These include faults, which involve hardware/server failure and power failure within the Hosting Environment, but excludes faults within the Licensor’s Software or any component beyond the external firewall of the Licensor’s data centre.

The Licensor aims to work to resolve the Priority H0 faults as soon as possible from the time of the fault being reported to the Licensor.

Initial response target	One (1) hour during Support Hours.
Resolution target	Continuous support during Support Hours and further work, at the Licensor’s discretion, outside Support Hours, until the critical issue is resolved.
Escalation target	Two (2) hours between each level.

Maintenance requests, or faults identified, which are not resolved before the escalation targets described in the priority issues tables above, may be escalated by the Customer through the following levels of the Licensor’s organisation:

Level 1	Hosting Team Lead
Level 2	Head of Customer Support
Level 3	Account Manager

Provision of maintenance/support services for the Hosting Environment, as defined above, are subject to the Customer providing all of the following to the Licensor: (i) A ticket for each issue at the start of the process, logged via the Licensor’s web based issue tracking software; (ii) A comprehensive clear description of the fault and expected behaviour, details of the steps to reproduce the problem and copies of screenshots where appropriate; (iii) Prompt responses to all reasonable requests for additional information in relation to the fault identified; and (iv) Approval to access or copy the Customer’s production database; this approval will be deemed to have been granted once the Customer has logged a ticket via the Licensor’s web based issue tracking software.

7. UPDATE SERVICES

The Licensor will perform operating system and database system updates as deemed required for correct operation of the Hosting Environment and the Software. Updates to the Software including essential patches for error corrections will also be routinely performed. The schedule for updates will be determined by the Licensor with the Customer being given appropriate advance notification based on the type and criticality of the updates. In the event that the Customer wishes to delay an update, the Licensor will make reasonable efforts to re-schedule the update to a mutually acceptable date. New versions of the Software and associated database scripts will be made available within the Hosting Environment by the Hosting team and are included in the Hosting Services. This constitutes a basic upgrade of the Software. Any Customer-specific requirements over and above these activities shall be planned by the Customer and Licensor as an appropriate chargeable project.

8. SUSPENSION

The Licensor may suspend the Hosting Services without liability if the Hosting Provider suspends the Hosting Services because: (i) it reasonably believes that the Hosting Services are being used by the Customer in breach of this Agreement; (ii) the Customer does not cooperate with a reasonable investigation by the Hosting Provider of any suspected violation of this Agreement; (iii) there is an attack on the Hosting Environment or the Hosting Environment is accessed or manipulated by a third party without the Customer’s consent; (iv) the Hosting Provider is required by law or a regulatory or government body to suspend the Hosting Services; or (v) there is another event for which the Hosting Provider reasonably believes that the suspension of the Hosting Services is necessary to protect the Hosting Provider’s network or the Hosting Provider’s other Customer. The Licensor shall, where notice is received from the Hosting Provider,

give the Customer advance notice of a suspension at least twelve (12) hours during business hours (being 8am to 5pm Monday to Friday, excluding public holidays). If the Hosting Environment is compromised, then the Customer shall address the vulnerability prior to the Hosting Provider placing the Hosting Environment back in service.

9. INDEMNIFICATION

If the Licensor or its Hosting Provider or any of its affiliates or their respective employees, agents or suppliers (the “Indemnitees”) is faced with a legal claim by a third party arising out of the Customer’s actual or alleged negligence, breach of law, failure to meet the security requirements of this Agreement, breach of the Hosting Provider’s acceptable use policy or export control regulations, then the Customer shall pay to the Licensor the cost of defending the claim (including reasonably legal fees) and any damages award, fine or other amount that is imposed on the Indemnitees as a result of the claim. The Customer’s obligations under this paragraph include claims arising out of the acts or omissions of the Customer’s employees or agents, any other person to whom the Customer has given access to the Hosting Services, and any person who gains access to the Hosting Services as a result of the Customer’s failure to use reasonable security precautions, even if the acts or omissions of such persons were not authorised by the Customer. The Customer must also pay to the Licensor reasonable legal fees that the Licensor and/or the Hosting Provider incur in connection with any dispute between persons having a conflicting claim to control the Customer’s use of the Hosting Services, or any claim arising from an actual or alleged breach of the Customer’s obligations. The Licensor and/or Hosting Provider will choose legal counsel to defend any claim made, provided that these decisions will be reasonable and will be promptly communicated to the Customer. The Customer shall comply with the Licensor’s reasonable requests for assistance and cooperation in the defence of the claim. The Customer shall pay reasonable legal fees and expenses due under this clause as the Licensor and/or Hosting Provider incur them.

10. SECURITY AND BACKUP

The Licensor will perform a full database backup operation once per week with differential backups on each subsequent day. The Licensor will manage the restoration of database backups in the case of breakdown. The Licensor will retain database backups on-site for two (2) weeks. The Customer releases the Licensor and the Hosting Provider from liability for loss of data to the extent that the data has changed since the time that the Licensor or the Hosting Provider was last required to perform a backup. The Licensor will use reasonable endeavours to ensure reasonable security precautions and practices in connection with the Hosting Services. Neither the Licensor nor the Hosting Provider is responsible to the Customer nor to any third party for unauthorised access to the Customer’s data or the unauthorised use of the Hosting Services unless the unauthorised access or use is attributable to the Licensor. The Customer agrees that it will not interfere with any services management software agent(s) that the Hosting Provider or the Licensor installs on the Hosting Environment.

11. OWNERSHIP

The Customer does not acquire any ownership, interest in or right to possess the Hosting Environment, and the Customer has no right of physical access to the Hosting Environment. Neither the Hosting Provider nor the Licensor acquire any ownership, interest in or right to the information the Customer transmits to or from or stores on the Hosting Environment.

12. HOSTING FEES

If there is an increase in the fees payable by the Licensor to the Hosting Provider, the Licensor reserves the right to increase the Hosting Fees accordingly. Unless otherwise agreed, the Licensor shall provide the Customer with not less than three (3) months’ notice of any increase in the Hosting Fees under this paragraph.
