

BRADY.

Brady's pioneering solution for businesses managing merchant credit risk

Automate your calculations to instantly gain a comprehensive overview of credit risk across your entire merchant portfolio. Brady's credit risk solution gives you the power to identify:

Which **merchants** provide the greatest risk

Which **geographical regions** have the highest risk

Which **products** pose the greatest risks

Intelligent, configurable alerting enables you to see your changing risk picture in real-time. Instantly view, on easy to interpret dashboards:

- ∴ Any changes good or bad to the **financial situation** of your merchant
- ∴ If you are approaching or breaching **limits** with specific merchants
- ∴ When a **credit rating** is downgraded for a merchant
- ∴ **Your exposure** by merchants, markets or products

Smarter, faster decision support for your analysts

Provide critical data in real-time to your analysts and free them from manual processes to initiate competitive risk strategies. Eliminate data error from manual action and increase efficiency across your organisation.

Have the power to run 'what-if' scenarios to understand the impact before events occur and support competitive decision making.

Features

Gain value rapidly from your investment

Flexible deployment and pricing. Brady's stand-alone solution can be pre-configured and operational within weeks. Deploy on-premise or cloud using AWS, Azure or through the Brady Cloud. Select the modules you need and scale across your organisation with ease.
